

2nd Annual Safety Committee Event

Kuehne's Safety Committees held a three-day event in August of 2017 that was intended to revisit injuries that the company had experienced over the past five years and to discuss methods to protect ourselves from these injuries occurring again. The primary focus was on safe work practices and the proper use of PPE.

While the employees relaxed and enjoyed their lunch, there were videos and posters sending out the message of safety. Further, we had a full-size mannequin in the room wearing PPE -- some of the PPE was worn correctly, and some was not -- which helped to demonstrate good and poor work practices.

The event ended with a quiz, and everyone answering all of the questions correctly was entered into a drawing for a prize. South Kearny employees turned in perfect scores 81% of the time while the Delaware City employees scored a 100%. Congratulations! The winners of the prize, a fitbitcharge2, were Kelly Ward from the South Kearny plant and Duane Mitchell from the Delaware City plant.

We would like to thank the safety committee who helped plan, organize and carry out this event. They are Jill Drazek, Dave Ramsey, Violet Herring, Viviana Mendez, Brenda Calderon, Mario Cifuentes, Tony Dias and Adriane Zapata. They worked hard for this to be a success.
